Night mode will keep back light on during entire round until you exit golf mode

| What is V.AI™?

An AI-based golf service that automatically provides necessary information by detecting the golfer's location and situation so that the golfer can focus on his or her swing during a round.

e.g.,

- ① teeing area, entering fairway after tee shot, entering green attack area, on green

- ② Shot Feedback View : detects a shot and displays distance and tempo
- ③ Shot & Putt Tracking : automatically detects and displays shots & putts

* How to deactivate V. AI

Menu > Settings > Golf Setting > V. AI > OFF

Shot Feedback View

- **Shot Tempo** : Automatically provides the swing tempo of the shot immediately after shot is taken

Automatically provides backswing, downswing, and tempo by detecting the golfer's swing

- **Golf ball distance** : When the icon is touched, the distance and tempo of the previous shot are shown.

Touch the **SHOT** icon or the distance number icon to see distance and shot tempo

* When the  icon is touched, the distance is measured manually and the number of shot is added.

Enter Golf Mode

Golf Mode

When the Golf Mode icon is touched, T9 will search for current course GPS and automatically detect starting hole.

Switch to the 'Course View /Green View/Yardage View' screen

| To enter Green View/Putt View/Yardage View

Swipe the 'Course View' screen when running Golf Mode for the first time.

- Course View, Green View, Putt View images may vary with regions and golf course situations.

* 'Yardage View' displays key data in large numbers when the + button icon is tapped

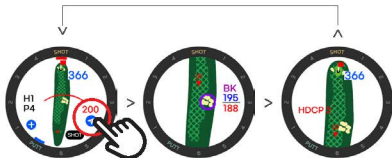

Course Preview

| Course Preview at the teeing area

- If you touch the 'Course Preview' icon , the device will play 'Course Preview'.
- It shows the distance to a bunker close to where the tee shot lands

Once the playback is finished, the screen returns to Golf Mode

* If the screen is touched during playback, it immediately returns to Golf Mode

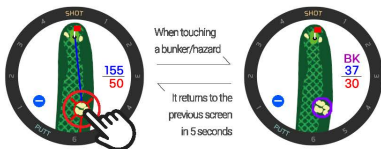

HDCCP / IP / Driver Distance
It shows information on
bunkers and hazards

It shows distance
to the pin

Indication of Bunkers/Hazards

When the relevant bunker or hazard is touched, the distance to the front and back of the bunker/hazard is displayed.

* Touch on the enlarged screen is easier.

Green View

Real Green Undulation

It indicates in 11 stages, using the actual measured green undulation data

Green Zoom (2-stage)

When the  icon is touched, the green is expanded ('Pin Reload' is supported)

Real Green Undulation

Touch the icon

Green Zoom

Green Zoom (2-stage)

- Touch the icon once (Stage 1) / twice (Stage 2)

Active Green View

| The shape of the green automatically rotates as the golfer's location changes

Putt View

It shows the height and distance from the ball to the pin

When standing next to ball location, tap ball icon (●) to show remaining distance and slope to pin.

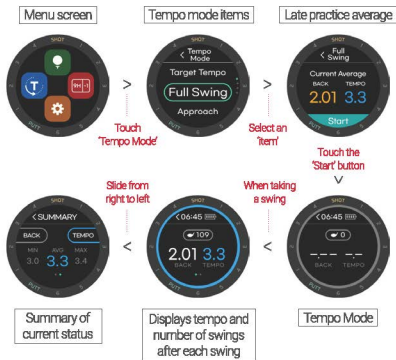

- ① Move to where the ball lies and touches the ball icon (●).
 - ② Return to where the pin lies and touch the pin icon (●), and height and distance are provided.
- Zoom in or out with the +/- tap. You can toggle between screens by dragging on the expanded screen

Tempo Practice Mode

| What is tempo practice mode?

A mode that provides practice in timing the tempo by setting a target tempo, so that you can practice for a consistent swing.

- On the menu screen, touch  >
Choose from [Full Swing/Approach/Putt]

Tempo Practice Mode

2 ways to set target tempo

- Amidst the Tempo Mode items, touch [Target Tempo] > Choose from among [Full Swing/Approach/Putt]

- Touch and hold the center of the screen in Tempo Mode

- When setting the Target Tempo, the target speed is displayed as a color circle.
Fast (Red), Accurate (Blue), Slow (Yellow)

How to Download My Voice Caddie

QR code to go to

Precautions

- The time it takes to find a satellite in Golf Mode may vary depending on the reception (as affected by weather and terrain).
Please turn on Golf Mode outdoors (Start Square, etc.).
- The battery life may be shortened when used in areas with poor satellite reception or in cold weather.
- Leaving the device in a high-temperature place such as a vehicle in summer or a high-humidity place such as a golf bag may cause malfunction.
- If you take a shower or enter the bathroom while wearing the watch, it may cause malfunction.

Caution

This equipment has been tested and found to comply with The limits for a Class B digital device, pursuant to part 15 of the FEE Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Caution

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio / TV technician for help.
 - This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) This device may not cause harmful interference, and 2) This device must accept any interference received, including interference that may cause undesired operation.
 - Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
 - The device has been evaluated to meet general RF exposure requirement.
 - The device can be used in portable exposure condition without restriction.
- * Risk of explosion if battery is replaced by an incorrect type.
Dispose of used batteries according to the instructions.

Warranty

1. This product has been produced through strict quality control and thorough inspection. In accordance with the Consumer Damage Compensation Regulations announced by the Ministry of Finance and Economy, we will properly compensate consumers for damage.
2. You can receive free service in case of a malfunction that occurs under normal use within the warranty period.
3. When requesting after-sales service and damage compensation, be sure to present this warranty and proof of purchase (receipt).

Pro Tips

| Use pro tips below to get the most out of your T9

- Be sure to setup your Golf Options like driver distance under settings tab.
- Keep your T9 updated with the newest firmware and course info using our VC Manager
Download at voicecaddie.com
- After finishing your round, be sure to exit golf mode and turn off T9 to prolong battery life.
