How to Wear

Getting Started (1)

Device Overview

Getting Started (2)

Power ON/OFF

Press and hold the 'Power Button' for 2 seconds.

- Once the power is 'ON,' your D1 will automatically start searching for GPS and recognize the golf course.

- Prior to each use, please allow approximately two minutes to sync the satellites.
- Distance Guidance to the Green (Display)

When the golf course is recognized, the distance to the front, center, and back of the green is automatically displayed on the screen.

- D1 measures the direct distance from wherever the player stands to the center/front/back of the green.
- The measurement does not account for external conditions including, but not limited to, weather, wind, and elevation.

Getting Started (3)

Distance Guidance to the Green (Voice)

When the golf course is recognized, press the 'Main Button' to listen the voice guidance.

- Distance to the Center of the Green

Press the 'Main Button' once.

- "Hole number (1-18), 000 yards/meters."

Distance to the Front and Back of the Green

Press the 'Main Button' twice.

- "Hole number (1-18), front 000 yards/meter, back 000 yards/meters."

* Voice Guidance is still functional while the screen is closed.

Distance Guidance near the Green

D1 stops the distance guidance when you are less than 15 yards from the green.

Getting Started (4)

Measuring Shot Distance

Press the 'Select Button' at the starting point to begin the measurement.

- "Measuring the shot distance."

Press the 'Select Button' again at the desired ending point to complete the measurement.

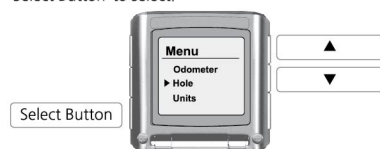

- "The shot distance is 000 yards, Hole number (1-18), 000 yards"
